NexGen Flooring

Since its inception in 2017, NexGen has been driven by a clear vision—to make India proud on the global stage through superior quality, innovation, and excellence in products and services. A remarkable extension of this vision, NexGen Flooring operates from a state-of-the-art manufacturing facility spread across an impressive 300 acres, backed by an investment exceeding ₹1,150 crore.

A true breakthrough in engineering and design, NexGen Flooring delivers a seamless blend of form and function across every collection. This distinctive approach resonates with architects, designers, retailers, and consumers alike, offering comprehensive flooring solutions that inspire creativity and elevate design sensibilities.

Manifest

This is more than a catalogue—it's a statement of intent. The Manifest carpet tile catalogue brings together thoughtful design, material innovation, and purposeful performance. Each collection reflects a balance of aesthetics and durability, created for contemporary spaces that demand flexibility and character. Manifest showcases textures, patterns, and tones that empower designers to shape environments with confidence, clarity, and creative freedom, transforming floors into foundations for inspired interiors.

Our Technologies

- Nexgen Backing

Crafted from advanced lightweight PVC, Nexgen Backing significantly reduces overall carpet weight while delivering up to 40% lower environmental impact compared to conventional carpet backings. Despite its lightweight construction, it meets the highest standards of durability and performance, ensuring long-lasting reliability without compromise.

- Healthy Floor Technology (Optional)

Our carpet tiles are also available with Healthy Floor Technology, featuring certified antiviral properties tested by renowned laboratories. As India's finest antiviral carpet tiles, they eliminate 99.68% of human coronavirus through a specialised coating of silver ions & titanium oxide. This innovation promotes healthier floors, cleaner spaces, and safer indoor environments.

- Comfort Tile M Backing

Designed for superior comfort, Comfort Tile M Backing incorporates a customised felt layer that enhances underfoot softness and ergonomic support. In addition to comfort, it offers excellent sound absorption, delivering high acoustic performance while improving overall indoor comfort and protection.

- Ny6+ Fiber Technology

For long-lasting, fade-resistant colours, Nexgen Floorings is crafted from a highly resilient Ny6+ fiber known for:

- Superior colour retention
- Excellent strength
- Outstanding stain and fade resistance

With Ny6+ Fiber, your floors retain their beauty and performance—no matter what.
